

# The Heritage Preservation Trust

Please join the Heritage Preservation Trust, a non-profit group committed to historical preservation and education in Volusia County. We are the owners of Lilian Place Historic House, the oldest home on Daytona Beachside built in 1884, made famous by Stephen Crane in his story "The Open Boat." We have recently purchased Hotchkiss House, built in 1905 by the famous stapler company owner, and we are committed to repairing and renovating and combining both sites for a heritage museum and cultural events center open to the community.

*Join us for historical programs, fundraisers, legislative work, and preservation efforts !!*
